

# Join the ATS for a Virtual Trauma Program Manager Course

Develop the Skills and Knowledge to Take Your Trauma Program to the Next Level!

Space is limited to 20 people per course, so be sure to reserve your spot today! To participate, each attendee must have access to a computer with a webcam, reliable high-speed internet, and a quiet space from which to join.

Join our expert instructors with years of Trauma Program Manager experience to learn more about developing a successful and sustainable trauma program. This two day course will provide a comprehensive overview of trauma program best practices, program implementation, community partnerships, and networking with Trauma Program Managers from across the country in a virtual setting.

Our Trauma Program Manager Course curriculum includes case studies, interactive practice examples, and opportunities to design tools for successful program Implementation.

The Trauma Center Association of America is approved by the California Board of Registered Nursing, Provider Number 16459 for 13.5 contact hours.
